

Cancellation of Contract

Sachin Naidoo and Abdulbasit Adam
EZWebDev Application Design
Johannesburg, South Africa

14 February 2017

Dear Josie,

I am writing you today to cancel our contract that is dated 05/25/2016 for the development of the LogoMojis iOS application.

Our contract is being cancelled for the following reasons:

- Application is overdue by 6 months.
- Developers are unable to overcome setbacks in development
- Developers are unable to deploy the application for testing on the client's device
- Client has chosen to cancel the contract.

Because the cancellation is the fault of EZWebDev, we forfeit any ownership we had over the application during development. The intellectual property and ownership of the application (LogoMojis) reside completely with Josie Marshall.

The outstanding monies of \$1687.50 are also forfeited by EZWebDev as these were dependent on finishing development and testing – which was not done. Cancellation of the above referenced contract is effective immediately.

We apologise for not being able to fulfill our commitments to you,

Sachin Naidoo and Abdulbasit Adam
EZWebDev
